- IV. I, the undersigned, a duly authorized veterinarian by the U.S. Department of Agriculture hereby certify that:
 - A. The United States is free of avian influenza.
 - B. The hatchery and the flock of origin of the said birds/hatching eggs, as well as all areas in a 10 km radius have been free from New Castle disease during the last 12 months.
 - C. The day-old chicks/day-old turkeys/hatching eggs described above originated from the above mentioned hatchery/flocks, which uses eggs obtained only from breeding flocks that are known to be free from bacillary white diarrhoea (Pullorum disease), Mycoplasma gallisepticum, Salmonella typhimurium, Salmonella enteritidis and from Arizona hinshawii (for turkeys only).
 - D. The breeding flocks/hatchery from which the hatching eggs/day-old chicks/day-old turkeys originated were free from evidence of infectious diseases day old water fowls and in particular of Avian influenza, Newcastle disease, Salmonella enteritidis, Avian chlamydiosis (Ornithosis), Tuberculosis and Reticuloendothliosis during the last 12 months.
 - E. The chicks have not been treated with antibiotics or other bactericidal or bacteriostatic agents.
 - F. A Pullorum-gallinarum agglutination test, of all (100%) the birds in the flocks of origin, has been carried out within 12 months prior to the date of export, with negative results.

An	ELISA	test	for	Ret:	icul	loendoth	nliosis	ha	as	been	carrie	ed	out
in	the b	reedir	ng f	lock	of	origin	within	2	mc	nths	prior	to	the

Date of Test _____

date of export with negative results.
